

RV Garage and Shop - 21829

Our Yelm customer first met us at the Puyallup Home Show. He stopped at our booth to talk to our Building Representative. He wanted to learn more about the dynamics of the PermaBilt® team . Later on, one of our monthly website specials caught his eye in regards to a garage that could house his boat and motorhome. We met with him three more times till he felt comfortable with his design and was ready to move on to building his garage.

The permitting process went smoothly and quickly. The customer then had his site prepared and materials and our crew were scheduled. And before he knew it, the building was erected and his motorhome and boat were safe and secure for the winter months ahead.
