

Three Car Garage and Shop with Hipped Roof-24968

This customer was moving from Seattle to Olympia and wanted to have a 3 car garage for his new place. He contacted PermaBilt® to begin the building design process. Once he met with the PermaBilt® building representative, he was made aware of the option to have a hipped roof style to complement the Dutch hips on his residence. His new garage now provides ample space for his cars and hobbies.
