

## Barn and Shop Enumclaw 26532

Our friends over at Enumclaw High School needed a building to house their pigs and goats for the FFA and other student programs. After meeting with our PermaBilt® Building Representative they decided on this great design. We constructed this beautiful rustic red 38'x60'x12' pole barn that features five of our 12'x12' stalls. Another cool feature of this building is the partial loft storage space spanning 14'x24'. We are eagerly anticipating the long-term utilization of this building by FFA students in the years ahead, and we're excited to witness the positive impact it will have on their educational experiences.
