Barn Poulsbo 25579

Our Poulsbo customer called us looking for a building to house her goats. Our Building Representative met with the customer on site to design the ideal pole barn to best suit their needs. The result was a 24’ x 22’ x 11’ with (1) 10’ x 20’ x 8’4” lean-to attached on one side a few feet below the main roof. The building was sided in Hardie® lap siding with a 3’ Zincalume wainscoting. The building was designed with 3 sliding doors with decorative cross hatches as well as 2) 4’x3’ windows. The design also included 18” eave and gable overhangs, a 10’ continuous flow ridge vent and bird blocking for proper ventilation. The end result was this beautiful and functional building allowing the customer to now enjoying housing for his animals and still have storage space.
