

Garage and RV Shop Granite Falls 25824

This customer just built a new home and wanted to add a storage building which would house their RV and vehicles with a loft that he would turn into a full apartment on his property in Granite Falls. The property sat on 6 acres surrounded by beautiful trees and they wanted the building to integrate with the surroundings. They had numerous meetings with the PermaBilt® Building Representative in order to get the design and the size pinned down precisely to what would work for his property layout and comply with Snohomish County requirements. When completed, the building sits among the backdrop of trees and adds beauty and function to the property.
