

Garage and Shop Olympia - 26364

This customer in Olympia wanted a building that could serve various purposes. After meeting with their PermaBilt® Building Representative they decided on this great design. One of the distinct features of this building is the 12'x36' open portion of the building, serving as a place for outdoor equipment, as well as additional covered storage space. The centerpiece of the building is the beautiful 12'x12' hand crafted split sliding door. There are a total of 5 windows on this building accompanied by the garage door lites on the 10'x10' roll up door. The completed PermaBilt® building aligned with the customer's early vision and they are very pleased with the addition to their property.
