Garage and Shop Belfair 26427

Our customer in Belfair wanted to create the ultimate shop for their property. Upon meeting with our PermaBilt® Building Representative they pinned down this great looking two-story building. To give their RV its own place, they added an enclosed lean to for a protective covered space during the winter months. This building is also complete with a full second floor that has 9 windows allowing all of the natural light into the building. When completed, the building sits among the backdrop of trees and the Puget sound.
