

Garage and Shop Ravensdale -26475

Our customer over in Ravensdale gave us a call interested in building a shop on their property. Having a few acres, this customer knew that they wanted a large enough shop to store their boat, camping trailer and other toys. As well as a spot to add an office for their business. With all of that in mind we designed and built this post frame shop for them. Wanting to match the exterior of their home, we used Hardie Lap wood siding and gable treatment for the customer to paint match their home with composition roofing. We also used house wrap at the bottom 3' on this gable end shown in the photos for the customers custom stone wainscoting they added. We are excited for our customers to enjoy their brand new building.
