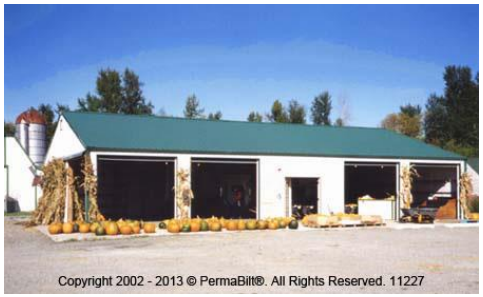
Farm Produce Stand - 11227



Post frame buildings make excellent fruit stands as so many proprietors have found. So when Ziemke's Farm Fresh Produce wanted to build a post frame stand in Buckley we had the expertise in putting together a stand that met their needs.

Like most produce stands, our customers needed lots of garage doors for product visibility, customer and vendor access, ventilation and security when closing up for the night. And to keep the air flowing, we built framed openings for exhaust fans to be installed by a third party.

Later on, as our customer's business was in full swing, he added awnings and signage to attract more of his customers.
